GREATEST FAIR IS NOW IN FULL SWING

EXHIBITS FAR SURPASS ALL IN THE PAST

And It Seems That At Least
One Carnival Is Deserving of
Place in the Sun

HOST OF WONDERFUL SIGHTS

The Clearfield County Fair opened yesterday with a fine first day's attendance. The handsome big Fair grounds was in excellent shape and an array of employees were on hand to look after visitors and make things comfortable for exhibitors. The exhibits are on a par with anything ever attempted along that line in this section and this fact is being most favorably commented upon by all who have thus far visited the fair.

The live stock and chicken departments are especially well filled and are attracting large crowds of visitors, while the Exposition Building display is by far the finest every attempted in Clearfield and must be seen to be appreciated.

The huge floral exhibit of Richard Gilbert from his gardens, corner of Turnpike and Martin streets occupy the main booth at the front of the building and is simply great. Mr. Gilbert is a wizard as a flower culturist and his display is remarkably handsome and attractive.

Clearfield merchants vied with each other in their merchandise booth displays and the result is a handsome tribute to the progressiveness of our business men and a revelation as to the character of goods handled in our stores.

The curio or historical department at the left of the main entrance is always the center of attraction for a large crowd of interested sightseers and many articles of interest and which concern the early history of our town and county are on display.

The real feature of this display is an interesting section, and one which carries us back to the early days of this glorious nation of ours, is the old fashioned wool carding machine and spinning wheel operated by Mrs. Mitchell and Mrs. Haney, residents of Bell township, Clearfield county. These good women at work being to the minds of the visitors a picture of the pioneer settlers of this county who were required to fashion our own clothing by hand from wool raised on the farms of the land. Mrs. Mitchell and Mrs. Haney with their old fashioned carding machine and spinning wheel will be found at work and while one woman is carding out the wool and spinning the yarn therefrom the other is busy at work with the speed of the expert knitter converting the same into some article of wearing apparel. The spinning wheel in use is much more than one hundred years old and has been in the Mitchell family for several generations.

The Wallace Orchestra, which was such a good impression here previously, is again on hand and adding its full measure to the enjoyment of the occasion, while the trapeze and other aerial performances in front of the stand are also highly enjoyable.

The races yesterday were fine, while the card and today, tomorrow and Friday presents some of the fastest horses to be found on the half mile track this season.

Col. Francis Petrus's Carnival and big animal show is all that its advance notice claimed for it. The biggest and best attraction of its kind traveling through Pennsylvania. The animal show is well worth the entire price of admission from gate to gate. In this show three or four of the most daring animals ever put on any given show in American public are given. More than twenty lions, tigers, panthers, jaguars and other members of the animal kingdom are employed in the different acts.

They are put through their paces by a big and two-armed man, trainers, whose athletic control over these vicious beasts is a marvel in the extreme. This circus is proving to be the most popular of the fair.

One of the prettiest and most comfortable places at the park is the public rest room for babies under the direction of the American Red Cross Public Health Nursing service, with County Superintendent Eva L. Smythe in charge. Accommodation for tired mothers and many cozy cots for the care and reception of cross, tired or dumpy coming babies is at hand, with a boy of handsome rosy cheeks nurses on hand to look after their welfare.

The fair must be seen to be appreciated. Your sure of missing something if you don't see it.

OWNER OF WHITE SOX FIRES MEN WHO 'SOLD OUT'

Heroic Action of Comiskey Will
Result in Complete Wrecking
of Chicago Pennant Hope

ACTION WILL CLEAN UP G.A.M.

NEW YORK, Sept. 29.—District Attorney Harry E. Lewis announced today he will start an immediate investigation into the reports that a gambling clique plans to attempt to bribe players of the Brooklyn team of the National league to lose the world series. Lewis said he wired District Attorney Hoynes, of Chicago, who got in touch with officials of the Brooklyn team. The later assured Lewis that the entire team will come to his office Friday morning. When informed by the United Press that Hoynes was in New York Lewis communicated with Hoynes immediately.

CHICAGO, Sept. 29.—Jean Dubuc former pitcher for the New York Nationals, now with the Toledo Athletics Association will appear October 4 before the Cook county grand jury investigating the base ball scandal.

CHICAGO, Sept. 29.—Three gamblers will be indicted on charges of corruption in connection with the 1911 White Sox players. Assistant District Attorney Replegle in charge of the investigation into the base ball scandal said that none of the guilty were in Chicago. He refused to disclose their names. Replegle said that none of the men were connected with the White Sox. John Heydler, president of the National League, was to testify before the grand jury today.

CHICAGO, Sept. 29.—Following the indictment of eight White Sox players by the grand jury investigating the alleged baseball gambling ring Charles A. Comiskey, owner of the Chicago American League baseball club issued this statement: "You and each of you are hereby notified of your indefinite suspension as a member of the Chicago American League Baseball club. If you can prove your innocence you will be returned to term in good standing. If you are found guilty you are out of organized baseball for the rest of your life."

Seven Players Indicted
CHICAGO, Sept. 29.—Following the big blow-off in the baseball gambling scandal when seven players of the White Sox and a former member of the same club were indicted on charges of conspiracy to "throw" the 1919 World Series in the interests of the gambling syndicate, Edward Cicotte, pitcher, and Joe Jackson, outfielder, were in the custody of the deputy sheriff last night.

The other six who were indicted will be given a chance to surrender today.

Immediately after true bills were returned, Charles Comiskey, owner, suspended the seven men. They are: Fred Mullen, utility infielder. Oscar Felsch, centerfielder. Edward Cicotte pitcher. Claude Williams, pitcher. Joe Jackson, outfielder. George Weaver, first baseman. Charles Risberg, shortstop. The eighth man is Arnold Gandill.

LETTER TELLS HOW FLETCHER BOYS MET DEATH

The following letter has been received by relatives of the two Fletcher boys who were murdered and robbed in the North West. It is gratifying to learn that the perpetrator of this awful deed has been captured. The letter indicated that the boys were murdered in cold blood. Following is the text:

Cando, North Carolina,
Sept. 25, 1920.

Mrs. T. P. Duckett,
Clearfield, Pa. R. F. D. No. 5
Madam:

Believing you to be the sister of two persons known in this County and who have been the victims of foul play, it is my most painful duty to inform you of their death. But not knowing it to be the most absolute proof of their relations to you I am taking this means to find out.

These two brothers have been threshing near a neighboring town and have been some time previous to this in Marcus, Iowa as their certificate of registration as owners of a Ford car in Dec. 1919 would indicate. The names given on this card are Earl and A. A. Fletcher.

At present we have a suspect in jail that all the circumstantial evidence points to as the assailant of these men.

The letter that I am taking this address from was written on May third, on Knights of Columbus paper and sent to Earl Fletcher, Marcus, Iowa, and in care of E. D. Anderson. It was signed—From your sister Carrie and the following address looked like the one above.

The men were found dead near a school house about nine miles East of Rolla, N. D. and about four miles west of Armourdale, N. D. and were taken to Bismarck, N. D. where they were made ready for burial and then had their pictures taken. Should you think that these men are your brothers and wish for a picture to be sure, we will gladly send you some. But on the other hand if you do not know these but know some one that does kindly let them know.

Trusting that this is clear enough for you to identify these men should you have known them and that you will kindly help us in obtaining sufficient identification of any relatives to them.

The name of the man we are holding is Sylvester Snyder alias Bill Bass.

Yours truly,
THOM OAKLAND,
Sheriff of Towner County.

first baseman, who was dropped from the club last spring after a disagreement over his salary.

The indictments resulted from testimony given by Cicotte and Jackson. It is believed they will be given immunity supplied to the jury.

Cicotte testified first. Jackson corroborated his story. Cicotte made his first confession in a conference with Chief Justice McDonnell. Then he told the grand jury the players had been fixed.

Cicotte got \$10,000, he said, and Jackson got only \$5,000 though he demanded \$20,000.

"I have lived a thousand years during the last year," he said, "and I am glad it's all over."

At least three gamblers and seven more players will be indicted, according to a man close to the state attorney's office.

CHICAGO, Sept. 29.—With the suspension of seven stars of the White Sox baseball team after they had been indicted in connection with a conspiracy to "throw" the 1919 World Series, the team is left almost a wreck. Their chance of winning the league pennant and play off the World Series is practically gone.

Both the outfield and the entire infield, considered by many to be the core and reception of cross, tired or dumpy coming babies is at hand, with a boy of handsome rosy cheeks nurses on hand to look after their welfare.

The fair must be seen to be appreciated. Your sure of missing something if you don't see it.

Harvey McClellan is at last in sight.

DEATH AT OSCEOLA SUNDAY NIGHT

Mrs. Angelina Matern, widow of the late G. P. G. Matern, died near Osceola Mills, Sunday evening at 9 o'clock from paralysis. The funeral will be held Wednesday afternoon at 2 o'clock.

OLD HAT MENDER HERE

Art Duncan, the old timer, who has been "making old hats new" for Clearfield people for more years than he would allow us to tell about, is a Clearfield visitor this week on his semi-annual pilgrimage to knock the h. c. l. along the hat line.

Mrs. Lydia E. Edwards went to Bellefonte today as delegate from the Missionary Society of the Presbyterian church to the Presbyterian meeting, after which she will return via Williamsport and attend the State D. A. R. conference held in the above city.

AT PRESBYTERIAN CHURCH

There will be prayer meeting at the Presbyterian church at 7:30 this evening. All are urged to come.

MARRIED

William E. Kermine and Miss Effie B. Robison both of Tyrone, Pa., were united in the bonds of Holy Matrimony at the home of John Houser, on Eighth street, Clearfield, Pa. on September 28, 1920 at 4 p. m. by Rev. B. J. Hummel. The groom is an ex-service man of the world war, having served in the 4th Division Anti-Aircraft, A. E. F. He is an electrician in the employ of the Tyrone Pulp and Paper Mills. The bride who earlier in life was from Philipsburg is an intelligent and industrious lady and will care well for their newly furnished home in Tyrone.

Weather and Health.

An Italian savant, as a result of investigating 24,528 cases, exclusive of contagious diseases, has concluded that morbidity is least in the windy periods, especially in winter, when the highest morbidity accompanies periods of cloudy skies.

of his goal, a regular berth as a shortstop.

Eddie Murphy, king of the pinch hitters, will be put at third to plug that hole. Shaun Collins will go back to the outfield, his old place. Ted Jourdan will replace him on the initial sack. He is good at fielding but poor at batting.

Bob Falk will be sent to right field. Amos Strunk and Nemo Leibold may also go to the outfield.

Dick Kern, Clarence Hodge, Ray Wilkenon and "Red" Faber will compose the pitching staff. There are other staffs of pitchers that are weaker in the league.

Should this team beat the St. Louis Browns in all three games and Cleveland lose two games to White Sox will win the pennant. This is their only chance and it is possible.

Many women who own property are under the impression that the payment of the property tax will entitle them to a vote this fall. Such is not the case. According to a decision of the County Solicitor the poll tax of fifty-three cents must be paid before anyone is entitled to a vote. Even though you have paid a property tax of several hundred dollars this poll tax must be paid, and remember that Friday is the last day for paying it.

JUNIOR HIGH ONE HUNDRED PER CENT BANKERS.

Today was the first "banking day" for the 1920-21 school term and the pupils of the Junior High School demonstrated that they were out this year to more than maintain their high standard of thrift of last year at this session.

There were three hundred "financiers" present at school this morning and these three hundred pupils made a total deposit of \$133, which is a record all may very well feel proud of and might well be emulated by all the pupils of our schools. Every pupil added something to his or her bank account and promise to continue so to do through out the term.

RELIC OF JEFF DAVIS

Otto Ball, of Smoke Run, who is attending Court this week, took the time to enter a very interesting relic at the historical booth at the fair. Mr. Ball's exhibit is in the shape of an ornamental button taken from the carriage of Jefferson Davis, President of the ill-fated Southern confederacy. The relic was secured by Mr. Ball's father, the late Comrade C. C. Ball of Smoke Run, a veteran of the Civil war, who was very well known throughout Clearfield county and who possessed a splendid war record.

WELL KNOWN AVIATOR HERE.

W. H. Emery, of Bradford, Pa., the aviator, who made so many successful flights about Clearfield several weeks ago when he arrived here from Indiana and landed on the Red barn above town, arrived in Clearfield in his machine yesterday afternoon at 4:20 o'clock and will be at the fair grounds all week. Aviator Emery will carry passengers and that Clearfielders generally appreciate a spin through the atmosphere is demonstrated by the fact that he has been besieged by prospective passengers ever since he arrived. He is an expert pilot and handles his machine like the real veteran of the game he is.

PITTSBURGH SCRIBES HARMONIOUS NOTES BANQUET AT JORDAN CAUSE DISCORD IN WESTCOTT IS HOST TEMPLE OF JUSTICE

Messrs. W. A. Van Duzer, M. H. James, W. Bream, W. B. Kline and E. H. Hiltz, of the State Highway Department of Harrisburg, accompanied by John R. Ball, R. S. Coll, L. R. Goshorn and Lawrence S. McDonald, Pittsburgh newspaper men, were guests of District Supervisor D. C. Stackpole, of Bellefonte, and County Superintendent of Roads, L. M. Westcott, at a dinner at Jordan's last evening.

The party was on a tour of inspection of the state roads in this section which started at Pittsburgh and will end at Erie tomorrow night.

Messrs. Stackpole and Westcott met the party at the Indiana county line yesterday morning and accompanied them through the county, pointing out the different points of interest for which they were looking in this section.

Messrs. Stewart and Connelly of The Progress, joined the party at dinner, which was up to the usual Jordan standard and was greatly enjoyed.

Managing Editor R. S. Coll of The Pittsburgh Dispatch, acted as toastmaster. He was full of praises for this section. The principal address of the evening was made by John R. Ball, the noted political writer of The Post, who was fuller of knocks and boasts for everybody than an egg is of meat.

Larry Go-horn, the veteran free lance, now doing special political correspondence for The Dispatch, discussed generally and generously on things political, past, present and future, while Larry McDonald, and hostilities with a little discussion upon Clearfield county roads, traversed them in the long and a barefoot boy.

The party spent the night at The Dimeling and continued on their way to Erie this morning.

REV. HUMMEL AND REV. WISSINGER WILL LEAVE

The United Brethren Conference has transferred the two Clearfield pastors to other fields. Rev. Hummel will go to the First Church of McKeesport, Pa., while Rev. Wissinger will go to Herrmann, Pa. Rev. G. R. Alban, of Herrmann, Pa. will come here in place of Mr. Wissinger.

Clearfield dis sorry to lose both of these gentlemen. Their stay has been both a profit and pleasure to Clearfield. We wish them success in their new fields of endeavor.

BANKS WILL CLOSE AT NOON TOMORROW.

Clearfield banking institutions will close at twelve o'clock sharp tomorrow in order that all employees may attend the Fair. Go thou and do likewise.

FUNERAL OF FRANK COX

The funeral service of the late Frank Cox of Tyrone, was held at his home in Curwensville on Sunday afternoon at 2:30 conducted by the Rev. J. C. Collins of the M. E. church. The funeral was largely attended and the floral tributes many. A beautiful casket was used. His remains were laid to rest in Oak Hill cemetery near the Brotherly lodge of Tyrone and the Odd Fellow of Curwensville in charge.

DAUGHTER OF REV. POULSON DIES

Ethel Ellen Poulson the little daughter of Rev. Omer E. and Emil (Britton) Poulson, died at 9:30 o'clock yesterday morning at the home of the family 307 Fifty-eighth street, Eldora, following an illness of one week from pneumonia. She was aged one year and four days and is survived by her parents and the following brothers and sisters: Britten, Harold, Dorothy, Ruth and Bethel. She was a member of the Cadle Roll of the Fifty-eighth street Methodist church. The funeral service will be held from the home at 2:30 o'clock tomorrow afternoon in charge of Rev. T. A. Elliott, followed by interment in the Carson V. cemetery.

Director McKinley brought his Crescent Refractories Band to Clearfield this morning for the fair and delighted a large audience at the Court House corner with a fine concert. The music was greatly appreciated by all who heard it with probably one exception. That exception proved to be Judge Bell, who presiding over the Helmsy murder trial. There was complete and satisfactory harmony in Mack's music but it caused absolute discord in the Court room and after worrying through several selections Judge Bell was compelled to issue a peremptory injunction restraining the band from further effort at that particular point while court was in session. The decree was couched in the court's usual diplomatic style and highly complimented Director McKinley on the quality of his music while deprecating the volume of sound which interfered with the procedure of the court, and ended by inviting the boys back when there was nothing doing in the temple of justice and he was at liberty to enjoy such music in the way it should be enjoyed.

FRONT PORCH TALES. Mrs. Harding wears inexpensive

By RAYMOND CLAPPER.
(United Press Staff Correspondent.)
MARION, OHIO, Sept. 28.—Everybody knows Senator Harding lives in Marion. That's how a train conductor happened to direct a young woman who was on her way to work for Senator Harding to Marion, Indiana. She arrived and called up the Harding headquarters there but found they hadn't heard of her job. She arrived at the house six hours late.

Mrs. Harding wears inexpensive gloves around Marion, but she wanted to do the Minnesota trip up right so she took along a pair of brand new white kid gloves to use at the public reception in the St. Paul state house. After two hours handshaking she pulled off the right glove—ripped and looking as if she had been making mud pies with it. But her hand stood the ordeal much better than the glove. A slightly stiff wrist was the only after effect.

Harding is a natural two-armed speaker. It bores him to have to hold a manuscript in one hand and read his speeches. But the climax came at the Minnesota fair speech when he had to hold his manuscript in one hand and a mouthpiece connected with the amplifying device in the other hand. He would forget himself and begin to wave it around in a gesture. The chairman had to remind him several times during his speech to hold the instrument to his mouth.

Frank Blacksten, who has been Harding's chauffeur twelve years, is one of Mrs. Harding's strongest boosters. He has a college education and owns a prosperous little farm near Marion. But he sticks to the wheel because he likes the Hardings. He and Mrs. Harding always outvote the senator's voting routes and all issues raised during motor trips. Frank doesn't like to lose any time while motoring and the speedometer often gets over forty miles. But the only time Harding was ever arrested for speeding he was going only eighteen miles an hour when the limit was fifteen. He got off for five dollars and costs. That was at Delaware, Ohio, twenty-five miles from here. Harding never takes the Delaware road now if he can get through any other way.

What Really Makes for Success.
There are a few men and women so circumstanced and handicapped that the only possible success for them is their heroic acceptance of what to others would be failure. But with the great majority the element that is lacking is the happy taking hold of the work before them.—Exchange.

There is not much to be said for the citizen who is just as good as the law compels him to be.

About the biggest bore imaginable is the man who goes around imparting information or which no one cares.

Some of the morning papers carry a story to the effect that President Wilson may resign before Mr. Harding's election and that his closest advisors have or will gently suggest to Mr. Wilson that such a course will save him embarrassment. Oh, that we could remind them of Lansing and save their precious heads.

Republicans are naturally charitable. That accounts for the glowing account of the organization meeting of the Cox-was made to minimize the success of the meeting. In spite of the rain the ardent disciples of the European league turned out en masse to draw up battle lines. The policy of The Progress is Republican but The Progress is not unmindful of the fact that its first duty is to the whole people of Clearfield and partisan politics, religion or issues will have no place in its news columns to the exclusion of the opposition. We have endeavored to print every charge launched by Governor Cox against the Republican candidate even though it has kept our presses busy and we are moved to remark at this time that these continued launchings must be making great inroads into the reputed champagne stock of the Democrats. We have printed both sides of every controversy and will continue to do so.

HOUSECLEANING IN BASEBALL.

It is questionable whether the excuse of certain elements of crookedness in baseball can do more harm to the national pastime than has already been done by the prevalence of wild and unjustified rumors of game-throwing and "fixing" of players and team. It is likewise uncertain whether the exposure of double-dealing can do more harm than has already been done by continued hoodlumism on the part of certain patrons of the parks, on the part of certain players, and even of men holding positions of responsibility on certain clubs.

On the whole, the grand jury investigations are likely to have a wholesome effect—particularly if revelations are followed by relentless prosecution and drastic punishment. While the inquiry has already shown that there are some black sheep in the fold, it is evident it will demonstrate that they are few in number. While the proceedings will bring to justice the crooked elements in baseball, it will bring justice to the majority of players, managers and owners who conduct themselves honestly and loyally and who have suffered, with the offenders, under imputations. A general housecleaning, then, will have a healthful influence upon public confidence and doubtless will result in a stiffening of the morale of all organized players.

One of the most dangerous handicaps under which the sport labors, however, is outside the province of the courts to regulate. Hoodlumism must be ruthlessly suppressed, and this can be done only by the efforts of baseball promoters themselves. The occasional clashes of players who lose their heads in the heat of the game are excusable and indulgently borne. The conduct of the players and managers off the field measures their standing in public esteem as truly as does their conduct in uniform. The spectacle of a man high in the counsels of baseball involved in repeated brawls and fistfights is not pleasant. Such men should be weeded out.

The great majority of men associated with baseball are of exemplary character and conduct. It is unfair to them that certain members of their profession most frequently in the limelight misrepresent them. That those who misbehave cannot escape the limelight is, however, an assurance of general integrity.

The baseball player is a public personage and must consent to be judged as such.

MRS. LUCY DOUCETTE, of Manchester, N. H., who says she's so happy over the way Tanlac restored her health she can't keep from telling people about it.

"I am just so happy over the way Tanlac has restored my health that I can't keep from telling people about it," said Mrs. Lucy Doucette of 76 Stark street, Manchester, New Hampshire a few days ago. "I suffered so long with chronic indigestion that I didn't know what it was to sit down and enjoy a single meal. My stomach was so badly disordered I had to live on the strictest diet and nothing seemed to agree with me. At times my breath seemed to be cut off and I would suffer terribly for hours at a time."

"I lost my strength completely and became so weak and run-down I would give out several times during the day and would have to stop and rest. I was extremely nervous and irritable, and just felt like I would break down completely."

"One day I saw a statement from a friend of mine who said Tanlac had helped her wonderfully, so I was convinced it was a dependable medicine and I began taking it immediately, and I am more than pleased at the splendid results. My appetite improved right from the first and the horrible indigestion from which I suffered so long has entirely disappeared."

"I have now finished my fourth bottle, and can eat just anything I wish without any bad after-effects. I also sleep better and have more strength and energy. It is a pleasure to tell others what Tanlac has done in my case."

Tanlac is sold by all leading druggists everywhere.

The KITCHEN CABINET

Let your head save your heels. Sometimes a minute of think is better than an hour of hustle.

WHAT TO EAT.

A simple salad and one which is a great favorite with all lovers of onions is this: Slice young tender onions in thin slices and pour over them thick sweet cream which has been well seasoned with salt and cayenne. This is fine with bread and butter for a late lunch.

Macedoine Salad.
Take one cupful each of cooked carrots and turnips cut in strips, one cupful of cooked potato cut in balls, one cupful of string beans, two tablespoonfuls of parsnips finely minced. Marinate in French dressing separately. Arrange in sections on lettuce and garnish with the parsley.

Corn Omelette.
Take one cupful of fresh grated corn, four eggs, one teaspoonful of salt, a dash of pepper, a tablespoonful of oil or butter. Separate the eggs and beat the yolks until thick, adding two tablespoonfuls of cold water, salt and pepper. Fold in the stiffly beaten whites and pour into a buttered omelette pan. Shake the pan and lift the edges, white cooking to cook in the center. Cover with corn and fold, turn out on a hot platter. The corn is seasoned with butter and pepper, then cooked over hot water for twenty minutes. The corn should be ready before the omelette is made.

Appledore Bean Soup.
Take one cupful of dried lima beans, soak in three parts of water, or in, add cold water and cook until soft in three parts of water. Rub through a sieve. Cut in small pieces four slices of onion, eight slices of carrot and cook in one-half cupful of fat; remove them and add two tablespoonfuls of flour, salt, pepper and three tablespoonfuls of tomato catsup. Add one and three-fourths cupfuls of milk, stir and cook until boiling. Serve at once.

Sponge Cake.
Take the juice and rind of one lemon, one fourth cupful of sugar, one and one-fourth cupfuls of flour and five well beaten eggs. Mix and bake as usual.

Fruit Whip.
Take one cupful of raspberries, stewed peaches or apricots, add one cupful of sugar and the white of one egg. Place in a deep bowl and beat until it forms a thick meringue.

Janitor.
The Romans always had a slave who stood by the door. Since the latter was called "Janua," the term "Janitor" came to be applied to him. Our janitors have a great many duties other than those connected with waiting upon the door; but this detail of Roman house management is crystallized in their name.

A Woman Likes To Be Admired, No Matter How Old She May Be

Nature undoubtedly made woman to be admired, and man to admire her. No woman ever gets so old that she doesn't want admiration, and no man ever gets beyond admiring her. Good looks in woman do not depend upon age, but upon health. A woman's health depends more upon the distinctly feminine organs than upon anything else. Between that organism

and her beauty there is the closest connection. You never see a good looking woman who is weak, run down, or afflicted with any of the ailments which drag down and destroy the beauty of a woman.

Dr. Lydia E. Pinkham's Vegetable Compound is the only medicine that will cure all the ailments of a woman. It is the only medicine that will cure all the ailments of a woman. It is the only medicine that will cure all the ailments of a woman.

To Tell How Much Can Will Hold
Measure the diameter and height of the can in inches. Multiply the diameter by itself and the product by the height. The result of one per cent of the total and the answer will be the number of pounds correct to one-fifth of a pound. The result 2 per cent of the total will be added.

Few men succeed because they are naturally brilliant. Success is due usually to persistence, determination and ambition. Any man can cultivate those qualities.

Oddities of the Sex
"Funny thing about men," remarked a pretty lass at the bench; "they are delighted when we girls forget how to swim and annoyed when we forget how to walk."—Boston Transcript.

Powder Puffs Replace Sugar.
Since the French sugar ration was increased and restaurants have resumed serving it, Paris women are converting their sugar boxes into powder puffs. The carrying of sugar in little gold boxes was a fashionable war fad. The new use for the boxes is said to have originated with a Russian girl who saw in the rising sugar ration a decline in the demand for her wares.

Early Treatment the Thing.
Untreated cancer means a mortality of exactly 100 per cent. No authentic exception has ever been known, or ever is likely to be known. But in its early stages, cancer is curable and has been cured thousands of times by a thorough operation that removes every particle of diseased tissue. Every case of cancer in a civilized country comes to the doctor some time. Why not come early enough to be saved?—Chicago Journal.

When you ask for oil, say "ATLANTIC"

Your motor troubles may be the result of your asking for just "oil."

But when you ask for Atlantic, these motor troubles are going to be reduced to a minimum.

When you use Atlantic, you are lessening the danger of putting a knock in the motor. You will secure better compression and more power.

You are going to reduce the chances of scoring the cylinders or burning out the bearings.

You'll seldom need to worry about loose wrist pins or connecting rods. You'll be less likely to have overheated cylinders.

Ask for Atlantic. Don't take a chance on any oil that's handed to you. You don't take a chance when you want gasoline. You ask for Atlantic then. All the more reason why you should ask for Atlantic when you want oil.

Atlantic will keep your motor in good condition longer. It will reduce your repair bills to almost nothing. Because Atlantic really lubricates and stands up under the most severe conditions.

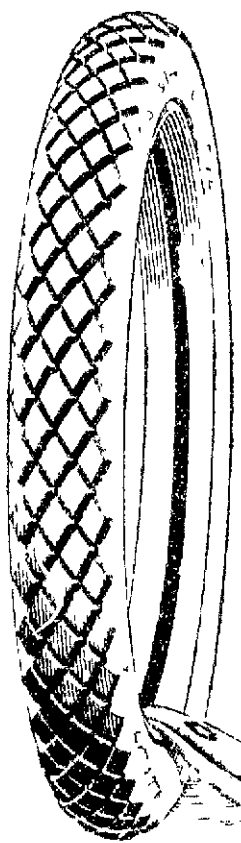

The next time you need oil, say

The Reduced Cost of Tire Mileage for Your Small Car

Do you realize that Goodyear Tires are priced no higher today than in 1910 and that their mileage actually costs less than it did a decade ago?

During this period Goodyear has been able steadily to increase the amount of mileage built into its tires and, consequently, the cost of Goodyear mileage has actually declined.

In no part of the Goodyear line has this decline been more marked than in the present 30 x 3, 30 x 3 1/2 and 31 x 4-inch sizes of Goodyear Tires, made especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for them—get the unusual value contained in their construction and delivered in their mileage.

START TOMORROW AND KEEP IT UP EVERY MORNING

Get into the habit of drinking a glass of hot water before breakfast

Millions of folks bather internally now instead of leading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles according to hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick results is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Health Note.

There is no question but that we, as a nation, are fast acquiring an excellent knowledge of food values and a sense of appreciation of the "balanced ration" in diet. And one of the principal things we are learning is that a definite amount of easily digested oil is indispensable to the proper maintenance of health and efficiency.

Must Sleep or Die.

Quoth Sir Thomas Browne, "One-half our days we pass in the shadow of the earth and the brother of Death extracteth a third part of our lives." Why should we give so many hours to sleep? For the purpose, we suppose, of giving the body rest. But during the sleep no physical or mental function is entirely at rest. We do not know why we must sleep, we only know we must sleep or die."

BEWARE!!!

If You Or Yours

Take sick or are hurt today and need the skilled aid of your Clearfield Hospital, the likelihood is that it would be impossible for you to get in, no matter how sick you might be and regardless of your circumstances:

WHY? The Clearfield Hospital faces appalling conditions. There is a Waiting List of applicants from all over Clearfield County. Fully 60 per cent. of all hospital work in Clearfield County has been heaped on Clearfield Hospital. Result: **Every ward and department is pitifully overcrowded. Needs are urgent.**

Supposing, though, that you are "never going to get sick." How about the fellow who DOES get sick, who is sick? How about those men and women (some of them prospective mothers) on the Waiting Lists? Is it not deplorable that the hospital to which they lift hopeful eyes has to refuse them admittance because of its conditions and needs?

The Clearfield Hospital is purely a charitable institution, making no profit, and existing primarily in order that the needy sick of Clearfield County may be cared for. If a patient is able to pay anything, he is expected to do so, but after expenses are paid, EVERY PENNY of that money goes to the care of the many, many who CAN'T pay.

Finding it absolutely necessary to enlarge CLEARFIELD HOSPITAL, the Clearfield Citizens named below are co-operating in a campaign to remedy the conditions at Clearfield Hospital, and to provide proper and necessary hospital service for Clearfield county. They have considered carefully this great public undertaking of mercy, and are convinced that it is

HOWE'S
117 Market Street

"YOU'RE LOOKING YOUNGER EVERY DAY, MOTHER"

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Chinese New Year.

For several weeks before the New Year, Chinese business men do everything in their power to get money to pay off all their debts, for a Chinese cannot pass over the year until all his obligations are paid or provided for. The New Year celebration usually ends with the Feast of Lanterns on the fifteenth day of the first moon. Lanterns of all sizes and descriptions are displayed, some representing animals, some flowers, some fruit, some in the shape of dragons. The lanterns are made of silk, cotton or gauze, painted in beautiful colors.

BIG HARM TO CROPS FROM GRASSHOPPERS

Situation Is Particularly Serious in Dakotas.

Pest Destroying First Good Crops Farmers Have Had Since Beginning of Extended Dry Season —Poison Bait Favored.

Grasshoppers are infesting the farms in the northern portions of North Dakota, Michigan and Oregon east of the Cascade mountains, according to reports received by the bureau of entomology. In the Dakotas the situation is particularly serious because the farms have suffered from several years of drought, and the average farmer's bank account is much decreased by these years of extremely low crop yields. Now comes the grasshopper to destroy the first good crop the farmers have been able to grow since the beginning of the extended dry seasons. In many cases the farmer's predicament is desperate.

Young Grasshoppers Feeding on Clover.

with no funds available to enable him to fight the pest which threatens him with bankruptcy.

The United States department of agriculture has no available funds for the purpose, but is giving such assistance as it can toward putting control measures into effect.

Grasshopper bait, made according to the directions given below and scattered over the infested areas, is a highly successful weapon to check the pest.

Use 25 pounds of wheat bran; 1 pound of paris green, or white arsenic; 8 oranges or lemons finely chopped; 2 quarts of low-fat molasses, and from 2 to 4 gallons of water.

Other baits are described in Farmers' Bulletin 747, United States department of agriculture, but there is very little difference in their relative efficiency. In moist climates the baits may be applied in the morning, but in semi-arid regions it should be put out in the evening to secure the best results.

HORSE'S FEET REQUIRE CARE

Doesn't Pay to Neglect Shoes of Animal—Permanent Injury May Be the Result.

Many a horse becomes incurably lame and has to be killed long before his time; and most often the cause is some trouble in the fore feet. Do not try to economize in the shoeing of your horses. Go to the best horse-shoer you can find, and let him have his own way. Have your horse shod at least once in four weeks. Avoid long calks. The higher the foot is raised from the ground, the worse for the foot. See that the shoe is big enough, and at the heels a little too big for the foot. See that your horse's feet are kept soft—especially in a long spell of dry weather. Remove his shoes if he stands in for a week or more, but give him bedding to stand on, so that he will not become footsore. No doubt you know these things yourself, but sometimes you forget them.

PROVIDING SHADE FOR HENS

Quick Growing Plants Furnish Protection as Well as Food—Rape Is Particularly Useful.

Artificial shade for the chickens should not need to be provided more than one year even if one is a short-lived plant. There are quick growing plants which will furnish protection and food as well. Rape is useful for this purpose; sunflowers of the various varieties, castor beans and screens of morning glories. For more permanent shade, put out currant, gooseberries and berries.

GREATEST FAIR IS NOW IN FULL SWING

EXHIBITS FAR SURPASS ALL IN THE PAST

And It Seems That At Least
One Carnival Is Deserving of
Place in the Sun

HOST OF WONDERFUL SIGHTS

The Clearfield County Fair opened yesterday with a fine first day's attendance. The handsome big Fair grounds was in excellent shape and an array of employees were on hand to look after visitors and make things comfortable for exhibitors. The exhibits are on a par with anything ever attempted along that line in this section and this fact is being most favorably commented upon by all who have thus far visited the fair.

The live stock and chicken departments are especially well filled and are attracting large crowds of visitors, while the Exposition Building display is by far the finest every attempted in Clearfield and must be seen to be appreciated.

The huge floral exhibit of Richard Gilbert from his gardens, corner of Turnpike and Martin streets occupy the main booth at the front of the building and is simply great. Mr. Gilbert is a wizard as a flower culturist and his display is remarkably handsome and attractive.

Clearfield merchants vied with each other in their merchandise booth displays and the result is a handsome tribute to the progressiveness of our business men and a revelation as to the character of goods handled in our stores.

The curio or historical department at the left of the main entrance is always the center of attraction for a large crowd of interested sightseers and many articles of interest and which concern the early history of our town and county are on display.

The real feature of this display is an interesting section, and one which carries us back to the early days of this glorious nation of ours, is the old fashioned wool carding machine and spinning wheel operated by Mrs. Mitchell and Mrs. Haney, residents of Bell township, Clearfield county. These good women at work being to the minds of the visitors a picture of the pioneer settlers of this county who were required to fashion our own clothing by hand from wool raised on the farms of the land. Mrs. Mitchell and Mrs. Haney with their old fashioned carding machine and spinning wheel will be found at work and while one woman is carding out the wool and spinning the yarn therefrom the other is busy at work with the speed of the expert knitter converting the same into some article of wearing apparel. The spinning wheel in use is much more than one hundred years old and has been in the Mitchell family for several generations.

The Wallace Orchestra, which was such a good impression here previously, is again on hand and adding its full measure to the enjoyment of the occasion, while the trapeze and other aerial performances in front of the stand are also highly enjoyable.

The races yesterday were fine, while the card and today, tomorrow and Friday presents some of the fastest horses to be found on the half mile track this season.

Col. Francis Petard's Carnival and big animal show is all that its advance notice claimed for it. The biggest and best attraction of its kind traveling through Pennsylvania. The animal show is well worth the entire price of admission from gate to gate. In this show three or four of the most daring animals ever put on any given show before an American public are given more than twenty lions, tigers, panthers, jaguars and other members of the animal kingdom are employed in the different acts.

They are put through their paces by a lion and two Indian men, whose athletic control over these vicious beasts is a revelation in the extreme. This circus is proving to be the most popular of the fair.

One of the prettiest and most comfortable places at the park is the public rest room for babies under the direction of the American Red Cross Public Health Nursing service, with County Superintendent Eva L. Smythe in charge. Accommodation for tired mothers and many cozy cots for the care and reception of cross, tired or dumpy coming babies is at hand, with a boy of handsome rosy cheeks nurses on hand to look after their welfare.

The fair must be seen to be appreciated. Your sure of missing something if you don't see it.

ACTION WILL CLEAN UP G.A.M.

NEW YORK, Sept. 29.—District Attorney Harry E. Lewis announced today he will start an immediate investigation into the reports that a gambling clique plans to attempt to bribe players of the Brooklyn team of the National league to lose the world series. Lewis said he wired District Attorney Hoynes, of Chicago, who got in touch with officials of the Brooklyn team. The later assured Lewis that the entire team will come to his office Friday morning. When informed by the United Press that Hoynes was in New York Lewis communicated with Hoynes immediately.

CHICAGO, Sept. 29.—Jean Dubuc former pitcher for the New York Nationals, now with the Toledo Athletics Association will appear October 4 before the Cook county grand jury investigating the base ball scandal.

CHICAGO, Sept. 29.—Three gamblers will be indicted on charges of corruption in connection with the 1911 White Sox players. Assistant District Attorney Replegle in charge of the investigation into the base ball scandal said that none of the guilty were in Chicago. He refused to disclose their names. Replegle said that none of the men were connected with the White Sox. John Heydler, president of the National League, was to testify before the grand jury today.

CHICAGO, Sept. 29.—Following the indictment of eight White Sox players by the grand jury investigating the alleged baseball gambling ring Charles A. Comiskey, owner of the Chicago American League baseball club issued this statement: "You and each of you are hereby notified of your indefinite suspension as a member of the Chicago American League Baseball club. If you can prove your innocence you will be returned to term in good standing. If you are found guilty you are out of organized baseball for the rest of your life."

Seven Players Indicted
CHICAGO, Sept. 29.—Following the big blow-off in the baseball gambling scandal when seven players of the White Sox and a former member of the same club were indicted on charges of conspiracy to "throw" the 1919 World Series in the interests of the gambling syndicate, Edward Cicotte, pitcher, and Joe Jackson, outfielder, were in the custody of the deputy sheriff last night.

The other six who were indicted will be given a chance to surrender today.

Immediately after true bills were returned, Charles Comiskey, owner, suspended the seven men. They are: Fred Mullen, utility infielder. Oscar Felsch, centerfielder. Edward Cicotte pitcher. Claude Williams, pitcher. Joe Jackson, outfielder. George Weaver, first baseman. Charles Risberg, shortstop. The eighth man is Arnold Gandill.

LETTER TELLS HOW FLETCHER BOYS MET DEATH

The following letter has been received by relatives of the two Fletcher boys who were murdered and robbed in the North West. It is gratifying to learn that the perpetrator of this awful deed has been captured. The letter indicated that the boys were murdered in cold blood. Following is the text:

Cando, North Carolina,
Sept. 25, 1920.

Mrs. T. P. Duckett,
Clearfield, Pa. R. F. D. No. 5
Madam:

Believing you to be the sister of two persons known in this County and who have been the victims of foul play, it is my most painful duty to inform you of their death. But not knowing it to be the most absolute proof of their relations to you I am taking this means to find out.

These two brothers have been thrashing near a neighboring town and have been some time previous to this in Marcus, Iowa as their certificate of registration as owners of a Ford car in Dec. 1919 would indicate. The names given on this card are Earl and A. A. Fletcher.

At present we have a suspect in jail that all the circumstantial evidence points to as the assailant of these men.

The letter that I am taking this address from was written on May third, on Knights of Columbus paper and sent to Earl Fletcher, Marcus, Iowa, and in care of E. D. Anderson. It was signed—From your sister Carrie and the following address looked like the one above.

The men were found dead near a school house about nine miles East of Rolla, N. D. and about four miles west of Armourdale, N. D. and were taken to Bismarck, N. D. where they were made ready for burial and then had their pictures taken. Should you think that these men are your brothers and wish for a picture to be sure, we will gladly send you some. But on the other hand if you do not know these but know some one that does kindly let them know.

Trusting that this is clear enough for you to identify these men should you have known them and that you will kindly help us in obtaining sufficient identification of any relatives to them.

The name of the man we are holding is Sylvester Snyder alias Bill Bass.

Yours truly,
THOM OAKLAND,
Sheriff of Towner County.

first baseman, who was dropped from the club last spring after a disagreement over his salary.

The indictments resulted from testimony given by Cicotte and Jackson. It is believed they will be given immunity supplied to the jury.

Cicotte testified first. Jackson corroborated his story. Cicotte made his first confession in a conference with Chief Justice McDonnell. Then he told the grand jury the players had been fixed.

Cicotte got \$10,000, he said, and Jackson got only \$5,000 though he demanded \$20,000.

"I have lived a thousand years during the last year," he said, "and I am glad it's all over."

At least three gamblers and seven more players will be indicted, according to a man close to the state attorney's office.

CHICAGO, Sept. 29.—With the suspension of seven stars of the White Sox baseball team after they had been indicted in connection with a conspiracy to "throw" the 1919 World Series, the team is left almost a wreck. Their chance of winning the league pennant and play off the World Series is practically gone.

Both the outfield and the entire infield, considered by many to be the core and reception of cross, tired or dumpy coming babies is at hand, with a boy of handsome rosy cheeks nurses on hand to look after their welfare.

The fair must be seen to be appreciated. Your sure of missing something if you don't see it.

Mrs. Angelina Matern, widow of the late G. P. G. Matern, died near Osceola Mills, Sunday evening at 9 o'clock from paralysis. The funeral will be held Wednesday afternoon at 2 o'clock.

OLD HAT MENDER HERE

Art Duncan, the old timer, who has been "making old hats new" for Clearfield people for more years than he would allow us to tell about, is a Clearfield visitor this week on his semi-annual pilgrimage to knock the h. c. l. along the hat line.

Mrs. Lydia E. Edwards went to Bellefonte today as delegate from the Missionary Society of the Presbyterian church to the Presbyterian meeting, after which she will return via Williamsport and attend the State D. A. R. conference held in the above city.

AT PRESBYTERIAN CHURCH

There will be prayer meeting at the Presbyterian church at 7:30 this evening. All are urged to come.

MARRIED

William E. Kermine and Miss Effie B. Robison both of Tyrone, Pa., were united in the bonds of Holy Matrimony at the home of John Houser, on Eighth street, Clearfield, Pa. on September 28, 1920 at 4 p. m. by Rev. B. J. Hummel. The groom is an ex-service man of the world war, having served in the 4th Division Anti-Aircraft, A. E. F. He is an electrician in the employ of the Tyrone Pulp and Paper Mills. The bride who earlier in life was from Philipsburg is an intelligent and industrious lady and will care well for their newly furnished home in Tyrone.

of his goal, a regular berth as a shortstop.

Eddie Murphy, king of the pinch hitters, will be put at third to plug that hole. Shaun Collins will go back to the outfield, his old place. Ted Jourdan will replace him on the initial sack. He is good at fielding but poor at batting.

Bob Falk will be sent to right field. Amos Strunk and Nemo Leibold may also go to the outfield.

Dick Kern, Clarence Hodge, Ray Wilkenon and "Red" Faber will compose the pitching staff. There are other staffs of pitchers that are weaker in the league.

Should this team beat the St. Louis Browns in all three games and Cleveland lose two games to White Sox will win the pennant. This is their only chance and it is not possible.

JUNIOR HIGH ONE HUNDRED PER CENT BANKERS.

Today was the first "banking day" for the 1920-21 school term and the pupils of the Junior High School demonstrated that they were out this year to more than maintain their high standard of thrift of last year at this session.

There were three hundred "financiers" present at school this morning and these three hundred pupils made a total deposit of \$133, which is a record all may very well feel proud of and might well be emulated by all the pupils of our schools. Every pupil added something to his or her bank account and promise to continue so to do through out the term.

RELIC OF JEFF DAVIS

Otto Ball, of Smoke Run, who is attending Court this week, took the time to enter a very interesting relic at the historical booth at the fair.

Mr. Ball's exhibit is in the shape of an ornamental button taken from the carriage of Jefferson Davis, President of the ill-fated Southern confederacy. The relic was secured by Mr. Ball's father, the late Comrade C. C. Ball of Smoke Run, a veteran of the Civil war, who was very well known throughout Clearfield county and who possessed a splendid war record.

WELL KNOWN AVIATOR HERE.

W. H. Emery, of Bradford, Pa., the aviator, who made so many successful flights about Clearfield several weeks ago when he arrived here from Indiana and landed on the Red barn above town, arrived in Clearfield in his machine yesterday afternoon at 4:20 o'clock and will be at the fair grounds all week. Aviator Emery will carry passengers and that Clearfielders generally appreciate a spin through the atmosphere is demonstrated by the fact that he has been besieged by prospective passengers ever since he arrived. He is an expert pilot and handles his machine like the real veteran of the game he is.

PITTSBURGH SCRIBES HARMONIOUS NOTES BANQUET AT JORDAN CAUSE DISCORD IN WESTCOTT IS HOST TEMPLE OF JUSTICE

Messrs. W. A. Van Duzer, M. H. James, W. Bream, W. B. Kline and E. H. Hiltz, of the State Highway Department of Harrisburg, accompanied by John R. Ball, R. S. Coll, L. R. Goshorn and Lawrence S. McDonald, Pittsburgh newspaper men, were guests of District Supervisor D. C. Stackpole, of Bellefonte, at County Superintendent of Roads, L. M. Westcott, at a dinner at Jordan's last evening.

The party was on a tour of inspection of the state roads in this section which started at Pittsburgh and will end at Erie tomorrow night.

Messrs. Stackpole and Westcott met the party at the Indiana county line yesterday morning and accompanied them through the county, pointing out the different points of interest for which they were looking in this section.

Messrs. Stewart and Connelly of The Progress, joined the party at dinner, which was up to the usual Jordan standard and was greatly enjoyed.

Managing Editor R. S. Coll of The Pittsburgh Dispatch, acted as toastmaster. He was full of praises for this section. The principal address of the evening was made by John R. Ball, the noted political writer of The Post, who was fuller of knocks and boasts for everybody than an egg is of meat.

Larry Go-horn, the veteran free lance, now doing special political correspondence for The Dispatch, discussed generally and generously on things political, past, present and future, while Larry McDonald, noted hostilities with a little discussion upon Clearfield county roads, traversed them in the long and a barefoot boy.

The party spent the night at The Dimeling and continued on their way to Erie this morning.

REV. HUMMEL AND REV. WISSINGER WILL LEAVE

The United Brethren Conference has transferred the two Clearfield pastors to other fields. Rev. Hummel will go to the First Church of McKeesport, Pa., while Rev. Wissinger will go to Herrmann, Pa. Rev. G. R. Alban, of Herrmann, Pa. will come here in place of Mr. Wissinger.

Clearfield dis sorry to lose both of these gentlemen. Their stay has been both a profit and pleasure to Clearfield. We wish them success in their new fields of endeavor.

BANKS WILL CLOSE AT NOON TOMORROW.

Clearfield banking institutions will close at twelve o'clock sharp tomorrow in order that all employees may attend the Fair. Go thou and do likewise.

FUNERAL OF FRANK COX

The funeral service of the late Frank Cox of Tyrone, was held at his home in Curwensville on Sunday afternoon at 2:30 conducted by the Rev. J. C. Collins of the M. E. church. The funeral was largely attended and the floral tributes many. A beautiful casket was used. His remains were laid to rest in Oak Hill cemetery near the Brotherly love of Tyrone and the Odd Fellow of Curwensville in charge.

DAUGHTER OF REV. POULSON DIES

Esther Ellen Poulson the little daughter of Rev. Omer E. and Emil (Britton) Poulson, died at 9:30 o'clock yesterday morning at the home of the family 307 Fifty-eighth street, Eldora, following an illness of one week from pneumonia. She was aged one year and four days and is survived by her parents and the following brothers and sisters: Britten, Harold, Dorothy, Ruth and Bethel. She was a member of the Cadle Roll of the Fifty-eighth street Methodist church. The funeral service will be held from the home at 2:30 o'clock tomorrow afternoon in charge of Rev. T. A. Elliott, followed by interment in the Carson V. cemetery.

Mercury Mines in Spain.

Mercury is produced in the provinces of Ciudad Real, Granada and Oviedo, but the most important mines in Spain are those of Ciudad Real, which are located at Almaden and cover a surface of 45,157 acres. They are owned and operated by the state.

Director McKinley brought his Crescent Refractories Band to Clearfield this morning for the fair and delighted a large audience at the Court House corner with a fine concert. The music was greatly appreciated by all who heard it with probably one exception. That exception proved to be Judge Bell, who presiding over the Helzy murder trial. There was complete and satisfactory harmony in Mack's music but it caused absolute discord in the Court room and after worrying through several selections Judge Bell was compelled to issue a peremptory injunction restraining the band from further effort at that particular point while court was in session. The decree was couched in the court's usual diplomatic style and highly complimented Director McKinley on the quality of his music while deprecating the volume of sound which interfered with the procedure of the court, and ended by inviting the boys back when there was nothing doing in the temple of justice and he was at liberty to enjoy such music in the way it should be enjoyed.

FRONT PORCH TALES. Mrs. Harding wears inexpensive

By RAYMOND CLAPPER.
(United Press Staff Correspondent.)
MARION, OHIO, Sept. 28.—Everybody knows Senator Harding lives in Marion. That's how a train conductor happened to direct a young woman who was on her way to work for Senator Harding to Marion, Indiana. She arrived and called up the Harding headquarters there but found they hadn't heard of her job. She arrived at the house six hours late.

Mrs. Harding wears inexpensive gloves around Marion, but she wanted to do the Minnesota trip up right so she took along a pair of brand new white kid gloves to use at the public reception in the St. Paul state house. After two hours handshaking she pulled off the right glove—ripped and looking as if she had been making mud pies with it. But her hand stood the ordeal much better than the glove. A slightly stiff wrist was the only after effect.

Harding is a natural two-armed speaker. It bores him to have to hold a manuscript in one hand and read his speeches. But the climax came at the Minnesota fair speech when he had to hold his manuscript in one hand and a mouthpiece connected with the amplifying device in the other hand. He would forget himself and begin to wave it around in a gesture. The chairman had to remind him several times during his speech to hold the instrument to his mouth.

Frank Blacksten, who has been Harding's chauffeur twelve years, is one of Mrs. Harding's strongest boosters. He has a college education and owns a prosperous little farm near Marion. But he sticks to the wheel because he likes the Hardings. He and Mrs. Harding always outvote the senator's voting routes and all issues raised during motor trips. Frank doesn't like to lose any time while motoring and the speedometer often gets over forty miles. But the only time Harding was ever arrested for speeding he was going only eighteen miles an hour when the limit was fifteen. He got off for five dollars and costs. That was at Delaware, Ohio, twenty-five miles from here. Harding never takes the Delaware road now if he can get through any other way.

What Really Makes for Success.
There are a few men and women so circumstanced and handicapped that the only possible success for them is their heroic acceptance of what to others would be failure. But with the great majority the element that is lacking is the happy taking hold of the work before them.—Exchange.

Many a person would bankrupt himself if he tried to sweeten his disposition at the prevailing prices.

It might help to humble many a man if he would reflect on whether his wife would enjoy being a widow.

A lot of male voters somewhat careless in dress, will probably feel like 'sprucing up' a bit this fall.

Even the most casual knowledge of anatomy will show that nature gave most men considerably more lungs than brains.

There is not much to be said for the citizen who is just as good as the law compels him to be.

About the biggest bore imaginable is the man who goes around imparting information or which no one cares.

Some of the morning papers carry a story to the effect that President Wilson may resign before Mr. Harding's election and that his closest advisors have or will gently suggest to Mr. Wilson that such a course will save him embarrassment. Oh, that we could remind them of Lansing and save their precious heads.

Republicans are naturally charitable. That accounts for the glowing account of the organization meeting of the Cox-was made to minimize the success of the meeting. In spite of the rain the ardent disciples of the European league turned out en masse to draw up battle lines. The policy of The Progress is Republican but The Progress is not unmindful of the fact that its first duty is to the whole people of Clearfield and partisan politics, religion or issues will have no place in its news columns to the exclusion of the opposition. We have endeavored to print every charge launched by Governor Cox against the Republican candidate even though it has kept our presses busy and we are moved to remark at this time that these continued launchings must be making great inroads into the reputed champagne stock of the Democrats. We have printed both sides of every controversy and will continue to do so.

HOUSECLEANING IN BASEBALL.

It is questionable whether the excuse of certain elements of crookedness in baseball can do more harm to the national pastime than has already been done by the prevalence of wild and unjustified rumors of game-throwing and "fixing" of players and team. It is likewise uncertain whether the exposure of double-dealing can do more harm than has already been done by continued hoodlumism on the part of certain patrons of the parks, on the part of certain players, and even of men holding positions of responsibility on certain clubs.

On the whole, the grand jury investigations are likely to have a wholesome effect—particularly if revelations are followed by relentless prosecution and drastic punishment. While the inquiry has already shown that there are some black sheep in the fold, it is evident it will demonstrate that they are few in number. While the proceedings will bring to justice the crooked elements in baseball, it will bring justice to the majority of players, managers and owners who conduct themselves honestly and loyally and who have suffered, with the offenders, under imputations. A general housecleaning, then, will have a healthful influence upon public confidence and doubtless will result in a stiffening of the morale of all organized players.

One of the most dangerous handicaps under which the sport labors, however, is outside the province of the courts to regulate. Hoodlumism must be ruthlessly suppressed, and this can be done only by the efforts of baseball promoters themselves. The occasional clashes of players who lose their heads in the heat of the game are excusable and indulgently borne. The conduct of the players and managers off the field measures their standing in public esteem as truly as does their conduct in uniform. The spectacle of a man high in the counsels of baseball involved in repeated brawls and fistfights is not pleasant. Such men should be weeded out.

The great majority of men associated with baseball are of exemplary character and conduct. It is unfair to them that certain members of their profession most frequently in the limelight misrepresent them. That those who misbehave cannot escape the limelight is, however, an assurance of general integrity.

The baseball player is a public personage and must consent to be judged as such.

MRS. LUCY DOUCETTE, of Manchester, N. H., who says she's so happy over the way Tanlac restored her health she can't keep from telling people about it.

"I am just so happy over the way Tanlac has restored my health that I can't keep from telling people about it," said Mrs. Lucy Doucette of 76 Stark street, Manchester, New Hampshire a few days ago. "I suffered so long with chronic indigestion that I didn't know what it was to sit down and enjoy a single meal. My stomach was so badly disordered I had to live on the strictest diet, and nothing seemed to agree with me. At times my breath seemed to be cut off and I would suffer terribly for hours at a time."

"I lost my strength completely and became so weak and run-down I would give out several times during the day and would have to stop and rest. I was extremely nervous and irritable, and just felt like I would break down completely."

"One day I saw a statement from a friend of mine who said Tanlac had helped her wonderfully, so I was convinced it was a dependable medicine and I began taking it immediately, and I am more than pleased at the splendid results. My appetite improved right from the first and the horrible indigestion from which I suffered so long has entirely disappeared."

"I have now finished my fourth bottle, and can eat just anything I wish without any bad after-effects. I also sleep better and have more strength and energy. It is a pleasure to tell others what Tanlac has done in my case."

Tanlac is sold by all leading druggists everywhere.

The KITCHEN CABINET

Let your head save your heels. Sometimes a minute of think is better than an hour of hustle.

WHAT TO EAT.

A simple salad and one which is a great favorite with all lovers of onions is this: Slice young tender onions in thin slices and pour over them thick sweet cream which has been well seasoned with salt and cayenne. This is fine with bread and butter for a late lunch.

Macedoine Salad.
Take one cupful each of cooked carrots and turnips cut in strips, one cupful of cooked potato cut in balls, one cupful of string beans, two tablespoonfuls of parsley finely minced. Marinate in French dressing separately. Arrange in sections on lettuce and garnish with the parsley.

Corn Omelette.
Take one cupful of fresh grated corn, four eggs, one teaspoonful of salt, a dash of pepper, a tablespoonful of oil or butter. Separate the eggs and beat the yolks until thick, adding two tablespoonfuls of cold water, salt and pepper. Fold in the stiffly beaten whites and pour into a buttered omelette pan. Shake the pan and lift the edges, white cooling to cook in the center. Cover with corn and fold, turn out on a hot platter. The corn is seasoned with butter and pepper, then cooked over hot water for twenty minutes. The corn should be ready before the omelette is made.

Appledore Bean Soup.
Take one cupful of dried lima beans, soak in three pints of water, drain, add cold water and cook until soft in three pints of water. Rub through a sieve. Cut in small pieces four slices of onion, eight slices of carrot and cook in one-half cupful of fat; remove them and add two tablespoonfuls of flour, salt, pepper and three tablespoonfuls of tomato catsup. Add one and three-fourths cupfuls of milk, stir and cook until boiling. Serve at once.

Sponge Cake.
Take the juice and rind of one lemon, one-fourth cupful of sugar, one and one-fourth cupfuls of flour and five well-beaten eggs. Mix and bake as usual.

Fruit Whip.
Take one cupful of raspberries, stewed peaches or apricots, add one cupful of sugar and the white of one egg. Place in a deep bowl and beat until it forms a thick meringue.

A Woman Likes To Be Admired, No Matter How Old She May Be

Nature undoubtedly made woman to be admired, and man to admire her. No woman ever gets so old that she doesn't want admiration, and no man ever gets beyond admiring her. Good looks in woman do not depend upon age, but upon health. A woman's health depends more upon the distinctly feminine organs than upon anything else. Between that organism

and her beauty there is the closest connection. You never see a graceful, young woman who is weak, run down, or afflicted with any of the ailments which hinder beauty. Health is the basis of beauty.

Dr. Lydia E. Pinkham's Vegetable Compound is the best remedy for all the ailments which hinder beauty. It is a purely vegetable preparation, and it is the only one that will cure the most stubborn cases of all the ailments which hinder beauty.

Powder Puffs Replace Sugar.
Since the French sugar ration was

When you ask for oil, say "ATLANTIC"

Your motor troubles may be the result
of your asking for just "oil."

But when you ask for Atlantic, these
motor troubles are going to be reduced to
a minimum.

When you use Atlantic, you are lessen-
ing the danger of putting a knock in the
motor. You will secure better compres-

You are going to reduce the chances of
searing the cylinders or burning out the
bearings.

You'll seldom need to worry about
loose wrist pins or connecting rods.
You'll be less likely to have overheated
cylinders.

Ask for Atlantic. Don't take a chance
on any oil that's handed to you. You don't
take a chance when you want gasoline.
You ask for Atlantic then. All the more
reason why you should ask for Atlantic
when you want oil.

Atlantic will keep your motor in good

The Reduced Cost of Tire Mileage for Your Small Car

Do you realize that Goodyear Tires
are priced no higher today than in
1910 and that their mileage actually
costs less than it did a decade ago?

During this period Goodyear has been
able steadily to increase the amount
of mileage built into its tires and,
consequently, the cost of Goodyear
mileage has actually declined.

In no part of the Goodyear line has
this decline been more marked than
in the present 30 x 3, 30 x 3 1/2 and

Health Note.

There is no question but that we, as a nation, are fast acquiring an excellent knowledge of food values and a sense of appreciation of the "balanced ration" in diet. And one of the principal things we are learning is that a definite amount of easily digested oil is indispensable to the proper maintenance of health and efficiency.

Must Sleep or Die.

Quoth Sir Thomas Browne, "One-half our days we pass in the shadow of the earth and the brother of Death extracteth a third part of our lives." Why should we give so many hours to sleep? For the purpose, we suppose, of giving the body rest. But during the sleep no physical or mental function is entirely at rest. We do not know why we must sleep, we only know we must sleep or die."

BEWARE!!!

If You Or Yours

Take sick or are hurt today and need the skilled aid of your Clearfield Hospital, the likelihood is that it would be impossible for you to get in, no matter how sick you might be and regardless of your circumstances:

WHY? The Clearfield Hospital faces appalling conditions. There is a Waiting List of applicants from all over Clearfield County. Fully 60 per cent. of all hospital work in Clearfield County has been heaped on Clearfield Hospital. Result: **Every ward and department is pitifully overcrowded. Needs are urgent.**

Supposing, though, that you are "never going to get sick." How about the fellow who DOES get sick, who is sick? How about those men and women (some of them prospective mothers) on the Waiting Lists? Is it not deplorable that the hospital to which they lift hopeful eyes has to refuse them admittance because of its conditions and needs?

The Clearfield Hospital is purely a charitable institution, making no profit, and existing primarily in order that the needy sick of Clearfield County may be cared for. If a patient is able to pay anything, he is expected to do so, but after expenses are paid, EVERY PENNY of that money goes to the care of the many, many who CAN'T pay.

Finding it absolutely necessary to enlarge CLEARFIELD HOSPITAL, the Clearfield Citizens named below are co-operating in a campaign to remedy the conditions at Clearfield Hospital, and to provide proper and necessary hospital service for Clearfield county. They have considered carefully this great public undertaking of mercy, and are convinced that it is

HOWE'S
117 Market Street

"YOU'RE LOOKING YOUNGER EVERY DAY, MOTHER"

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Chinese New Year.

For several weeks before the New Year, Chinese business men do everything in their power to get money to pay off all their debts, for a Chinese cannot pass over the year until all his obligations are paid or provided for. The New Year celebration usually ends with the Feast of Lanterns on the fifteenth day of the first moon. Lanterns of all sizes and descriptions are displayed, some representing animals, some flowers, some fruit, some in the shape of dragons. The lanterns are made of silk, cotton or gauze, painted in beautiful colors.

BIG HARM TO CROPS FROM GRASSHOPPERS

Situation Is Particularly Serious in Dakotas.

Pest Destroying First Good Crops Farmers Have Had Since Beginning of Extended Dry Season—Poison Bait Favored.

Grasshoppers are infesting the farms in the northern portions of North Dakota, Michigan and Oregon east of the Cascade mountains, according to reports received by the bureau of entomology. In the Dakotas the situation is particularly serious because the farms have suffered from several years of drought, and the average farmer's bank account is much decreased by these years of extremely low crop yields. Now comes the grasshopper to destroy the first good crop the farmers have been able to grow since the beginning of the extended dry seasons. In many cases the farmer's predicament is desperate.

with no funds available to enable him to fight the pest which threatens him with bankruptcy.

The United States department of agriculture has no available funds for the purpose, but is giving such assistance as it can toward putting control measures into effect.

Grasshopper bait, made according to the directions given below and scattered over the infested areas, is a highly successful weapon to check the pest.

Use 25 pounds of wheat bran; 1 pound of paris green, or white arsenic; 8 oranges or lemons finely chopped; 2 quarts of low-fat molasses, and from 2 to 4 gallons of water.

Other baits are described in Farmers' Bulletin 747, United States department of agriculture, but there is very little difference in their relative efficiency. In moist climates the baits may be applied in the morning, but in semi-arid regions it should be put out in the evening to secure the best results.

HORSE'S FEET REQUIRE CARE

Doesn't Pay to Neglect Shoes of Animal—Permanent Injury May Be the Result.

Many a horse becomes incurably lame and has to be killed long before his time; and most often the cause is some trouble in the fore feet. Do not try to economize in the shoeing of your horses. Go to the best horse-shoer you can find, and let him have his own way. Have your horse shod at least once in four weeks. Avoid long calks. The higher the foot is raised from the ground, the worse for the foot. See that the shoe is big enough, and at the heels a little too big for the foot. See that your horse's feet are kept soft—especially in a long spell of dry weather. Remove his shoes if he stands in for a week or more, but give him bedding to stand on, so that he will not become footsore. No doubt you know these things yourself, but sometimes you forget them.

FARM FORESTRY MAKES FARMING PAY BETTER

- 1. Marketing timber profitably.
- 2. Supplying timber for farm needs.
- 3. Furnishing employment for men and teams in winter.
- 4. Making waste lands yield a profit.
- 5. Increasing the sale value of the farm.

PROVIDING SHADE FOR HENS

Quick Growing Plants Furnish Protection as Well as Food—Rape Is Particularly Useful.

Artificial shade for the chickens should not need to be provided more than one year even if one is a short-leafed plant. There are quick growing plants which will furnish protection and food as well. Rape is useful for this purpose; sunflowers of the various varieties, castor beans and screens of morning glories. For more permanent shade, put out currant, gooseberries and berries.
